FileCloud allows users to customize the branding of FileCloud service.

The following items can be customized in FileCloud using the Admin Portal

- [General Customization](#) (see page 2)
- [Login Background Image](#) (see page 9)
- [Themes, Labels, and Logos](#) (see page 10)
- [User Portal Themes](#) (see page 14)
- [UI Messages](#) (see page 17)
- [Email Templates](#) (see page 19)
 - (23.253) [Email Template Tool](#)
- [News Feed](#) (see page 35)
- [Customize Product URLs](#) (see page 38)
 - (23.253) [Mobile Application Smart Banner Customization](#)
- [Customizing CSS](#) (see page 42)
- [FileCloud White Label Guide](#) (see page 45)
 - [FileCloud Android App White Label Instructions](#) (see page 45)
 - [FileCloud Drive White Label Instructions](#) (see page 46)
 - [FileCloud iOS App White Label Instructions](#) (see page 51)
 - [FileCloud Sync White Label Instructions](#) (see page 56)
 - [Signing Applications](#) (see page 58)
- [Customizing Terms of Service](#) (see page 59)

**Note**

The Office Online web edit identifier "Saved to FileCloud" cannot be customized.

General Customization

Customization is available on FileCloud Standard and Enterprise. [Learn more](#)¹.

FileCloud allows some customization of the options on the User Portal and responses to user requests.

For any UI feature customizations to be effective, you must enable the first one, **Enable UI Customizations**.

To authorize Admin users to perform customizations, enable Customization settings for their roles. See [Managing Admin Users](#) for more information.

To customize the log-in experience, see [Customize the User Login Screen](#).

You can enable or disable the following options to customize how users interact with the portal.

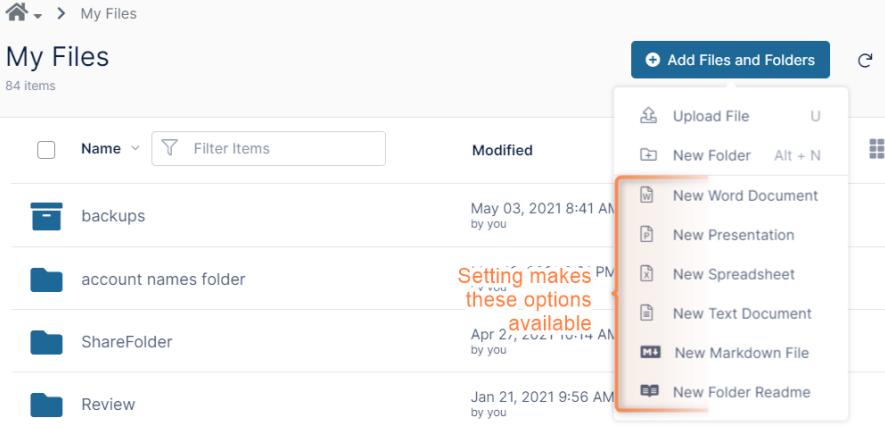

UI Features

To change the options a user will see:

1. Login to Administration portal.
2. On the left navigation menu panel, click **Customization**.
3. Click the General tab, and then below it click the UI Features tab.
4. Use the checkboxes to enable or disable any of the options described in the following table.
5. To apply the change, click **Save**.

UI Feature Option	Description
Show Document Preview	This enables FileCloud to display the preview option for text-based document files in the user portal. Requires setting up document preview. Enabled by default.
Enable additional email templates	This enables users to view email templates for specific user types as well as default email templates on the Email Templates tab.

1. <https://www.filecloud.com/pricing/>

UI Feature Option	Description
Show Single File Share Full Preview	<p>This enables or disables single file shares to open in a full preview mode (if applicable). This is useful for PDF file shares. Beginning with FileCloud version 20.2, enabled by default.</p>
Show New Document Creation Option	<p>Enabling this will allow the users to create new Office, text, and markdown documents. Enabled by default. Also see New Document Creation via Web Browser.</p> 
Show Edit in Desktop Option	<p>Enabling this option will allow documents to be edited using the local system's Office program and automatically save back to FileCloud.</p>
-	-
Disable Music Playback	Show or disable Music Player in User Portal
Disable News Feed	Show or disable news feed in User Portal (Shown below the left side navigation panel)
Disable Folder Download	Disable "Downloading" of full folders or multiple items as zip files
Show Email Preview Dialog	<p>Options:</p> <p>Send email and show email preview dialog (default)</p> <p>Send email and hide preview dialog: Share Email Notification Dialog will not pop up, but automatically the email will be sent to the user.</p> <p>Do not send email when sharing: Share Email Notification Dialog will not pop up, and no email will be sent to the user.</p>

UI Feature Option	Description
Disable Getting Started Admin Dialog	(Added in FileCloud 20.1) This only disables the features overview for new administrators. In versions prior to 20.1, it disabled the features overview for new administrators and the tutorial and welcome message for new users.
Disable New User Tutorial	Disables Get started with FileCloud tutorial from opening when a new user logs in.

Add links to the Account menu

You can enable or disable the following options to add links to the user's Account menu.

To change the user's Account menu options:

1. Login to Administration portal.
2. On the left navigation menu panel, click **Customization**.
3. Click the General tab, and then below it click the **Account Menu** tab.
4. Use the checkboxes to enable or disable any of the options described in the following table.
5. To apply the change, click [Save](#).

Account Menu Option	Description
Show Install Desktop Apps	This will show or hide the "Install Desktop Apps" menu item in the "Account" drop-down menu in User portal
Show Install Mobile Apps	This will show or hide the "Install Mobile Apps" menu item in the "Account" drop-down menu in User portal

Customize User Account Menu

Show Install Desktop Apps	<input checked="" type="checkbox"/>	Display desktop client link in user account menu
Show Install Mobile Apps	<input checked="" type="checkbox"/>	Display mobile clients link in user account menu

Customize how files are listed

You can enable or disable the following options to change how files are listed on the User Portal.

To change the way a user's files are listed:

1. Login to Administration portal.
2. On the left navigation menu panel, click **Customization**.
3. Click the General tab, and then below it click the Listing tab.
4. Use the checkboxes to enable or disable any of the options described in the following table.
5. To apply the change, click Save.

File Listing Option	Description
Default file selection	Auto Select of a file when a user logs in
File List Multi Select	This option will allow you to enable or disable multi-select feature in file list view
Default sort by	The sorting of file listing shown in the web browser can be selected to be based on either Name or Data or Size.
Default sort direction	The sorting of file listing shown in the web browser can be set to ascending or descending order.
Allow Sort Override	Default is Allowed . Allow or disallow users to override sorting defaults.

UI Features Login Account Menu **Listing**

Customize User File Listing

Default File Selection

Enter default file to select

Specify file to auto-select on navigation (File list view)

File List Multi Select

Enabled

Enable/Disable Multi-Select (File list view)

Default Sort By

Name

Select the default sort by attribute

Default Sort Direction

Ascending

Selects the default sort by direction

Allow Sort Override

Allowed

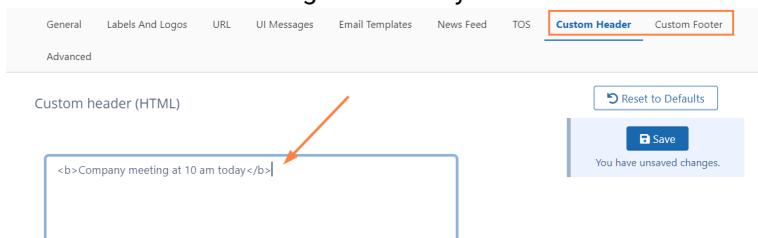

Allow/Disallow users to override sorting defaults.

Custom Header and Footer

You can add custom header and footer content to the user portal by entering it on the **Custom Header** and **Custom Footer** tabs.

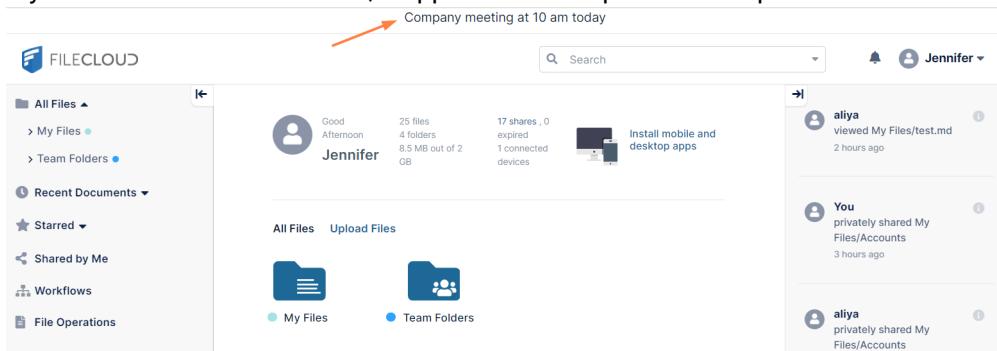

To add a custom header or footer:

1. Click Custom Header or Custom Footer.
2. In the Custom Header or Custom Footer field, enter your text.
You can include HTML tags to format your content.

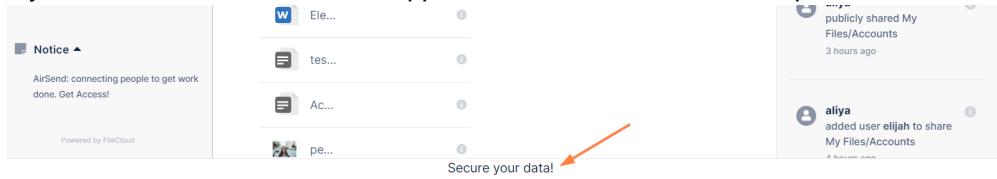

3. Click **Save**.

If you include a custom header, it appears at the top of the user portal screen:

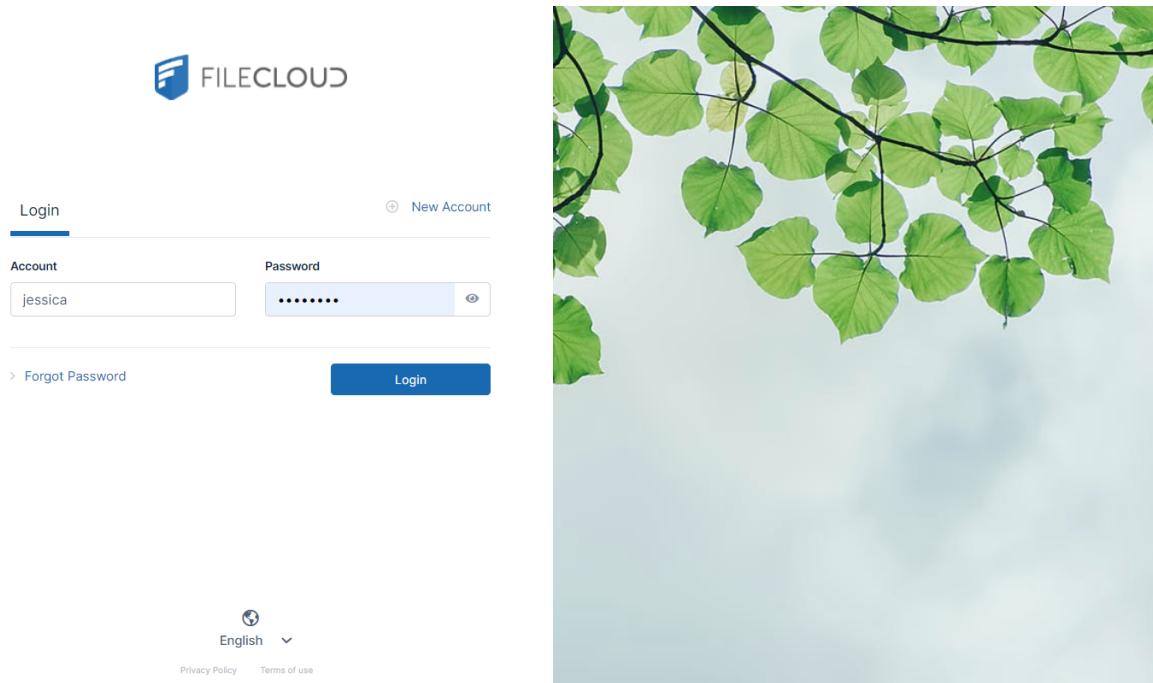

If you include a custom footer, it appears at the bottom of the user portal screen:

Login Background Image

You can customize the admin or user log-in page background image. For example:

To customize the background image, in the Admin Portal, go to **Customizations > Labels and Logos > Logos, Icons, and Backgrounds** and click **User Login Background** or **Admin Login Background** and choose an appropriate background image for the log-in page.

See [Themes, Labels, and Logos \(see page 10\)](#) for more information.

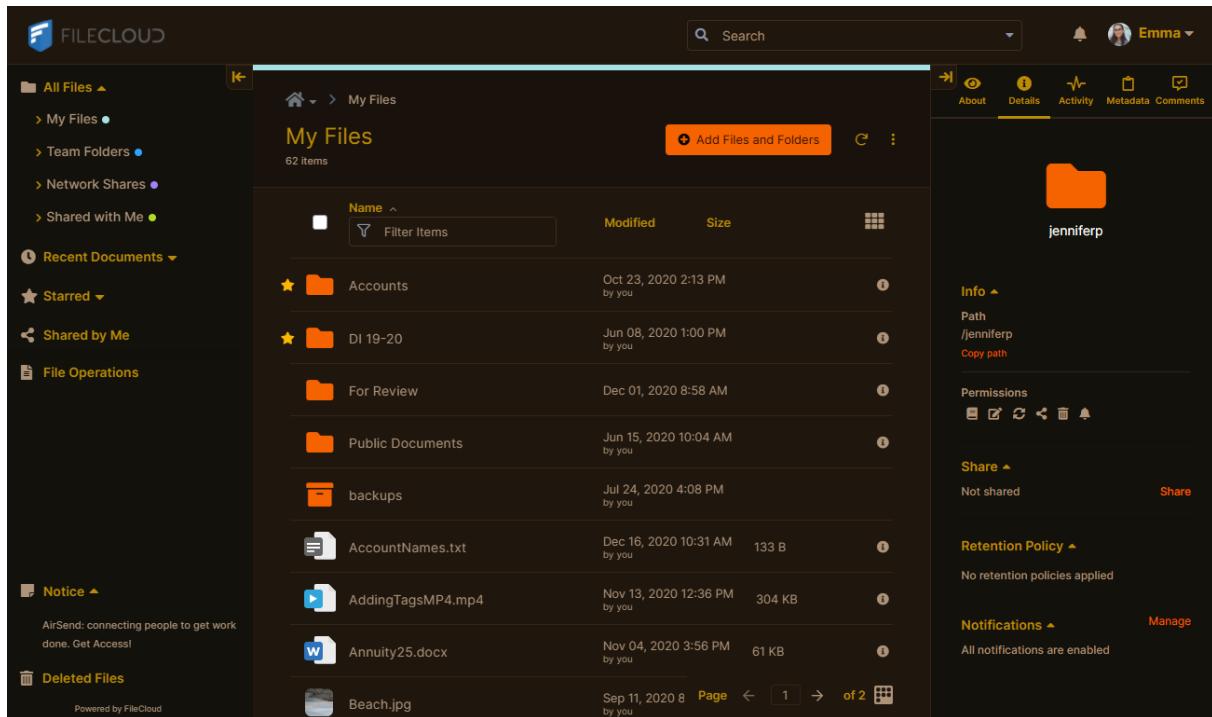

Themes, Labels, and Logos

FileCloud supports customization of its themes, logos, background images, and labels.

Beginning with FileCloud version 20.2, FileCloud includes light and dark themes.

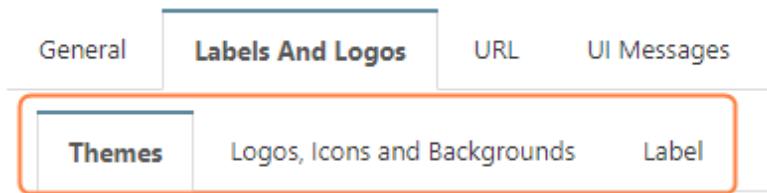

Beginning with FileCloud version 20.3, FileCloud includes predefined custom themes, such as the Sunburn theme shown below.

[View all FileCloud themes \(see page 14\)](#)

To customize screen elements:

1. In the navigation pane, click **Customization**, and then choose the **Labels and Logos** tab.
2. Choose the sub-tab that corresponds with the feature that you want to customize:

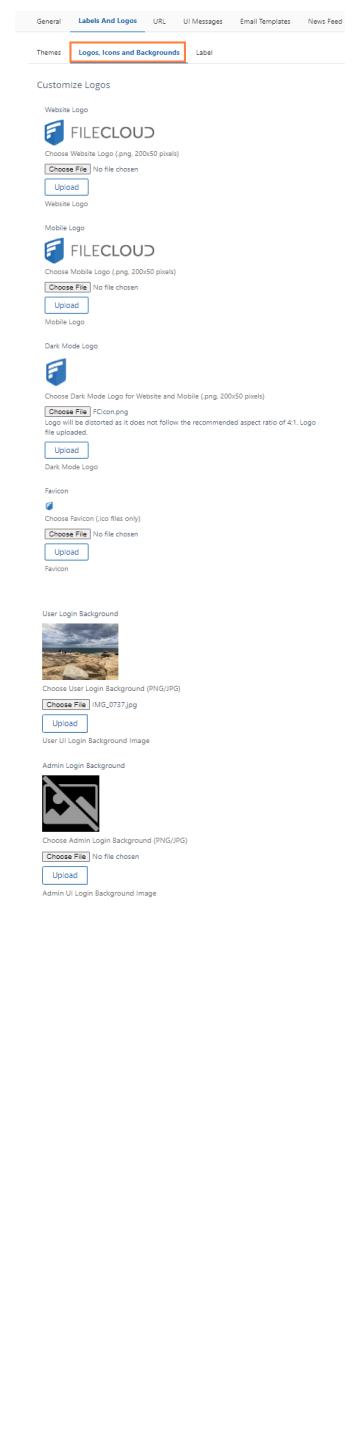

Customize User Portal Themes

To customize the colors of the user interface, click the **Themes** sub-tab.

		Customize Themes
Theme (see page 14)		User portal color scheme. The default color scheme for the user portal is Light . Other options include Dark , and a series of preset color combinations.
Default Primary Color		Color for main features such as folder icons and buttons in the user portal.
High Contrast Mode		When checked, the user portal screens appear in higher contrast for better visibility.
Enable User Override		When checked, users can override your default theme and color settings with the same preset themes, high contrast option, and primary color choices that are available to you.

Add Your Own Logos and Backgrounds

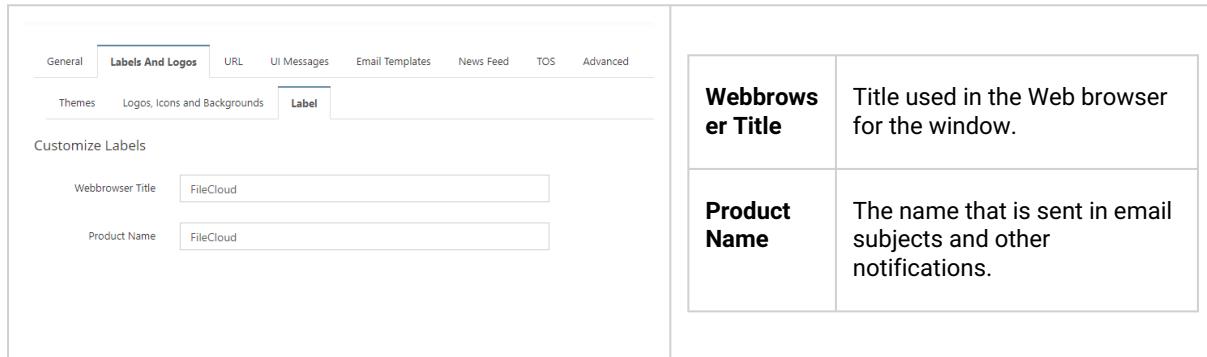

To change logos in your FileCloud site, click the **Logos, Icons and Backgrounds** tab.

	<table border="1"> <tbody> <tr> <td data-bbox="573 309 743 489"> Website Logo </td><td data-bbox="752 323 1367 476"> <p>The logo that appears in the user portal.</p> <p>⚠ Image must be a PNG file.</p> <ul style="list-style-type: none"> Image should be 200px x 50px or in another 4:1 proportion, to avoid distortion. </td></tr> <tr> <td data-bbox="573 503 743 682"> Mobile Logo </td><td data-bbox="752 514 1367 689"> <p>The logo that appears in mobile clients.</p> <p>⚠ Image must be a PNG file.</p> <ul style="list-style-type: none"> Image should be 200px x 50px or in another 4:1 proportion, to avoid distortion. </td></tr> <tr> <td data-bbox="573 696 743 875"> Dark Mode Logo </td><td data-bbox="752 707 1367 882"> <p>The logo that appears when dark mode is enabled.</p> <p>⚠ Image must be a PNG file.</p> <ul style="list-style-type: none"> Image should be 200px x 50px or in another 4:1 proportion, to avoid distortion. </td></tr> <tr> <td data-bbox="573 889 743 1114"> Favicon </td><td data-bbox="752 900 1367 1102"> <p>The thumbnail-sized logo that appears in address bars and on tabs.</p> <p>⚠ Image must have the following format:</p> <ul style="list-style-type: none"> ICO format Be less than or equal to 16px x 16px </td></tr> <tr> <td data-bbox="573 1125 743 1383"> User Login Background </td><td data-bbox="752 1136 1367 1361"> <p>Background image for the user portal log-in page.</p> <p>⚠ Image must have the following format:</p> <ul style="list-style-type: none"> PNG, JPG, or JPEG format Be less than or equal to 1400px x 2000px with 7:10 proportion Maximum size of 1MB </td></tr> <tr> <td data-bbox="573 1394 743 1648"> Admin Login Background </td><td data-bbox="752 1405 1367 1630"> <p>Background image for the admin portal log-in page.</p> <p>⚠ Image must have the following format:</p> <ul style="list-style-type: none"> PNG, JPG, or JPEG format Be less than or equal to 1400px x 2000px with 7:10 proportion Maximum size of 1MB </td></tr> </tbody> </table>	Website Logo	<p>The logo that appears in the user portal.</p> <p>⚠ Image must be a PNG file.</p> <ul style="list-style-type: none"> Image should be 200px x 50px or in another 4:1 proportion, to avoid distortion. Sunburn

The screenshot shows the FileCloud interface with a dark theme. The main header bar is orange, featuring the FileCloud logo, a search bar, and a user profile for 'Emma'. The left sidebar includes sections for 'All Files' (My Files, Team Folders, Network Shares, Shared with Me), 'Recent Documents' (Starred, Shared by Me, File Operations), and 'Notice' (a link to the user guide). The main content area is titled 'My Files' and shows a list of 63 items. The items are listed in a table with columns for Name, Modified, and Size. The table includes a header row with sorting and filtering options. The right sidebar contains sections for 'Info' (Path: /jenniferp, Copy path), 'Permissions' (with icons for edit, delete, share, and lock), 'Share' (a public share link), 'Retention Policy' (No retention policies applied), and 'Notifications' (All notifications are enabled).

Caffeine

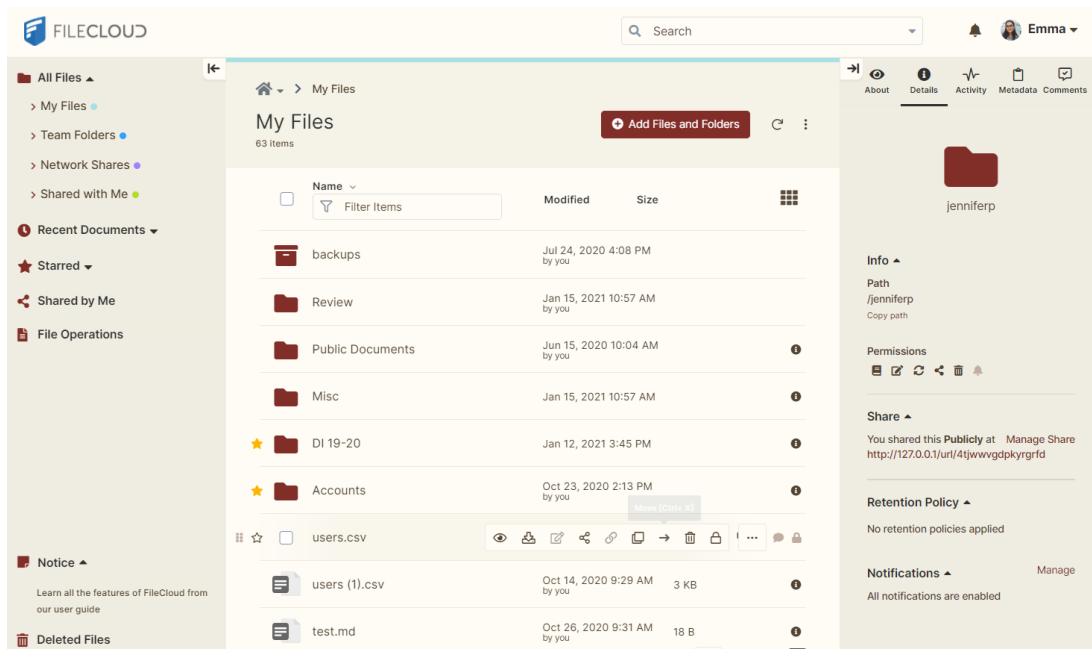

The screenshot shows the FileCloud interface with a dark theme and red branding. The main header bar is red, featuring the FileCloud logo, a search bar, and a user profile for 'Emma'. The left sidebar includes sections for 'All Files' (My Files, Team Folders, Network Shares, Shared with Me), 'Recent Documents' (Starred, Shared by Me, File Operations), and 'Notice' (a link to the user guide). The main content area is titled 'My Files' and shows a list of 63 items. The items are listed in a table with columns for Name, Modified, and Size. The table includes a header row with sorting and filtering options. The right sidebar contains sections for 'Info' (Path: /jenniferp, Copy path), 'Permissions' (with icons for edit, delete, share, and lock), 'Share' (a public share link), 'Retention Policy' (No retention policies applied), and 'Notifications' (All notifications are enabled).

Midnight

The screenshot shows the FileCloud interface with a dark theme. The sidebar on the left contains a navigation menu with sections like 'All Files', 'Recent Documents', 'File Operations', 'Notice', and 'Deleted Files'. The main content area shows a list of files and folders under 'My Files'. The interface uses a light font color on a dark background, with blue and grey accents. The right side of the screen displays detailed information about a selected folder named 'jenniferp', including its path, permissions, sharing details, retention policy, and notifications.

Mohave

The screenshot shows the FileCloud interface with a light theme. The sidebar and header are light-colored, and the main content area has a light background. The interface uses a dark font color on a light background, with blue and grey accents. The right side of the screen displays detailed information about a selected folder named 'jenniferp', including its path, permissions, sharing details, retention policy, and notifications.

UI Messages

FileCloud generates a number of messages for user actions. FileCloud comes with default messages and these can be customized.

The following messages can be changed

Message Type	Description
404 Error	This is the HTML response shown to user in browser when URL requesting invalid received by FileCloud
Email Subscribe Failure	This is the error if a user email could not be subscribed for notifications
Email Subscribe Success	This is the message that will be displayed when user email is subscribed successfully
Email Unsubscribe Failure	This is the error displayed when user email unsubscribe fails.
Email Unsubscribe Success	This is the message shown when an user email is unsubscribed
Account Verification Failure	This is the error shown when a user email verification fails
Account Verification Success	This is the message shown when a user email verification succeeds
Generic Message	This is a message used for all other messages shown via the web browser UI
Login Error Message	This is a HTML message that will be display on user login failures. This message can be used to show different URLs to users for further help with login (for example, reset an expired AD password).

To change a UI message:

1. Log into Administration Portal.
2. Click **Customization** on the left navigation panel.

3. Click the UI Messages tab.

Email Templates

FileCloud provides you with various messages to send to a user when an action occurs. These messages can be customized.

Read Descriptions of the Default Messages

Message Template	Description
Add Group To Share Email Template	When a share is created for a Group, this is the message that will be sent to all users of that group.
Update User Email Template	When a user account is changed this is the message that is sent to the user.
Add New User To Share Email Template	When a new share is created this is the message to be sent to a user who is currently NOT a FileCloud user. This will contain instructions for the non-FileCloud user to first create an account before attempting to access the shared resource
Auto Create New User to Share Email Template	This is the email that is sent to users whose accounts are automatically created on a share action (if this option is applicable).
Add User To Share Email Template	When a new share is created this is the message to be sent to a user who is already a FileCloud user.
Share Email Template	When a public share is created by a user, the user can send that shared link using email. This message will be used for reporting that share link.
Account Approval Email Template	This is the email message to the user that will be sent when Admin approves a user account.
Reset Forgot Password Email Template	This is the email message sent when user does password reset.
Email Password Template	This is the email sent when the temporary password is generated.
Waiting For Approval Email Template	This is the email message that will be sent when a user registers for a new Account in FileCloud (and if automatic account approval is not turned on).
Welcome/Verification Email Template	This is the email message that will be sent when a new user account is approved into FileCloud system.
Notification Email Template	This is the email message that will be sent if a share is modified.

Message Template	Description
Notification Item Template	Notification item template used to define each file / folder action. Those items are then embedded into the notification email.
Account Locked Alert Email Template	Email sent out when a user account is locked because of too many attempts
Generic Email Template	This is a boilerplate template used for miscellaneous messages
Two Factor Authentication Email Template	Email sent out with security code
Device Waiting for User Approval Email Template	This is the email message that will be sent when a Device is waiting for User Approval.
Expiring Share Notification Email Template	Email notification sent when the share is about to expire.
Failed Upload Notification Email Template	Email notification sent when the upload failed due to the limited Storage Quota.
Limited Disk Space Notification Email Template	Email notification sent when account is running out of the allocated disk space.
Password Expiration Notification Email Template	Email notification sent when user password is about to expire.
Workflow Notification Email Template	Email template used to notify users whose accounts are inactive and will be disabled.
Workflow Generic Email Template	Email template for general notifications for active accounts.
ServerLink Critical Alert Template	Template for email that indicates that there is an error with ServerLink synchronization.
Decline User Email Template	Template for email that indicates that a request for a FileCloud account has been declined.
Errors During Sanitation On Forcepoint CDR Email Template	Email notification sent to user when Forcepoint CDR sanitation resulted in an error, and the file is in quarantine.

Message Template	Description
Workflow Auto Disable Account Email Template	Email notification sent to user when an account is disabled through a workflow.

How to Change Default Email Messages

To change a default email message:

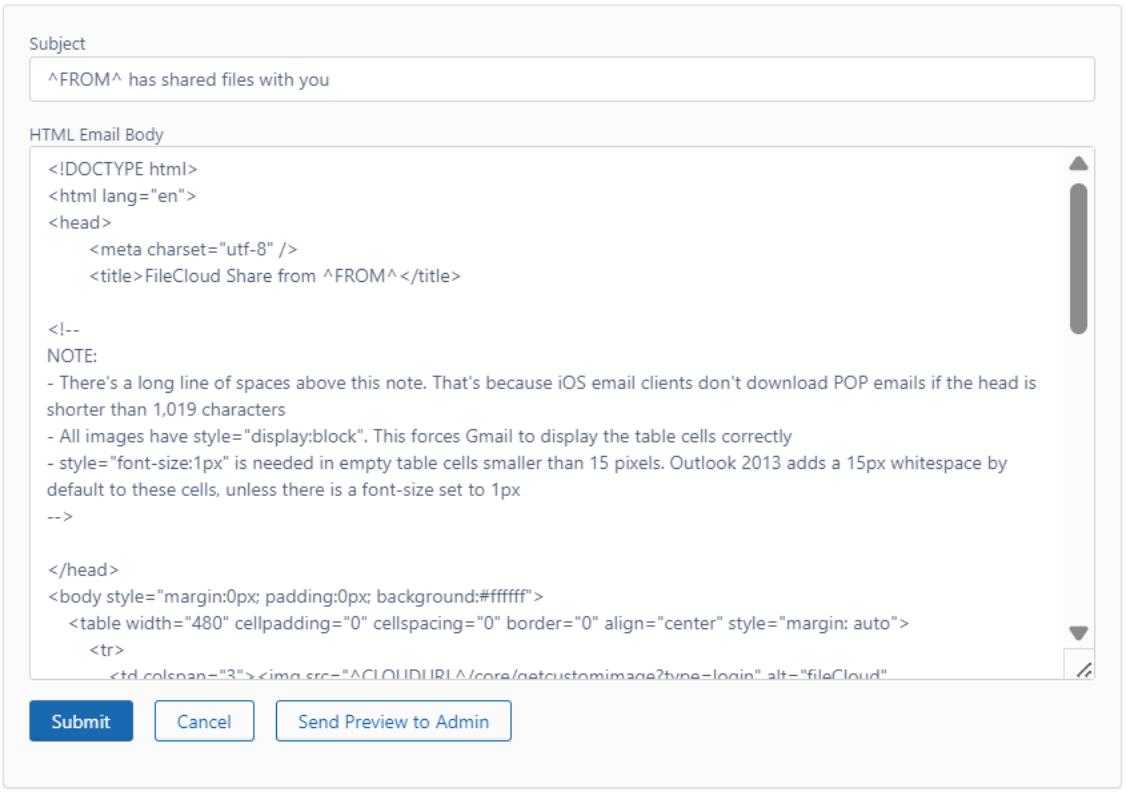

1. Log into Administration Portal
2. On the left navigation panel, click **Customization**.
3. Click the Email Templates tab.

The screenshot shows the 'Manage User UI Customizations' interface. The left navigation panel is highlighted with a red box around the 'Customization' tab. The main content area shows a table of 'Custom Email Templates' with 'Edit' and 'Preview' buttons for each row. The 'Email Templates' tab is selected in the top navigation bar.

Custom Email Templates		
Add Group To Share Email Template	Edit	Preview
Update User Email Template	Edit	Preview
Add New User To Share Email Template	Edit	Preview
Auto Create New User To Share Email Template	Edit	Preview
Add User To Share Email Template	Edit	Preview
Share Email Template	Edit	Preview
Account Approval Email Template	Edit	Preview

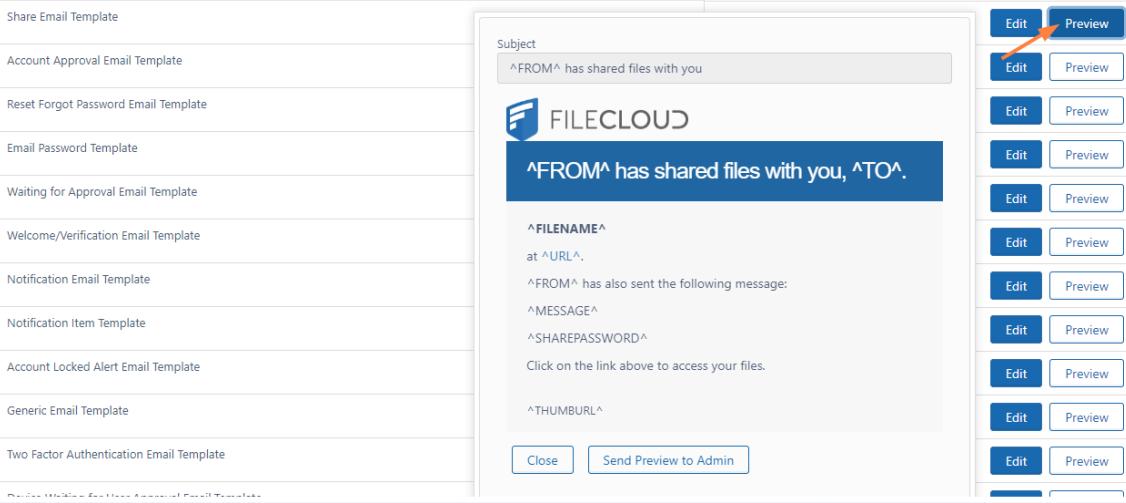

4. To change the mail subject and body, click the **Edit** button.

5. Make your changes, then click **Submit**.

The dialog box shows the 'HTML Email Body' tab selected. The code area contains a note about character limits for iOS clients and styling for table cells. The preview area shows a preview of the email with the changes applied. Buttons at the bottom include 'Submit', 'Cancel', and 'Send Preview to Admin'.

6. To confirm the changes, click **Send Preview to Admin** to receive an email showing the changes, or after you close out of the dialog box, click **Preview** to open a preview of the modified email:

The left sidebar shows a list of email templates: Share Email Template, Account Approval Email Template, Reset Forgot Password Email Template, Email Password Template, Waiting for Approval Email Template, Welcome/Verification Email Template, Notification Email Template, Notification Item Template, Account Locked Alert Email Template, Generic Email Template, and Two Factor Authentication Email Template. The right side shows a preview of the 'Share Email Template' with the changes applied. A red arrow points to the 'Preview' button in the top right corner of the preview area.

How to Automatically Embed QR Codes in Share Emails

1. Go to Customization > Email Templates.
2. Edit the share email template.

General	Labels And Logos	URL	UI Messages	Email Templates	News Feed	TOS	Custom Header	Custom Footer
Advanced								
Custom Email Templates								
Add Group To Share Email Template				Edit	Preview			
Update User Email Template				Edit	Preview			
Add New User To Share Email Template				Edit	Preview			
Auto Create New User To Share Email Template				Edit	Preview			
Add User To Share Email Template				Edit	Preview			
Share Email Template				Edit	Preview			
Account Approval Email Template				Edit	Preview			

The feature is supported in all of the Share email templates.

3. Add the placeholder `^QRCODESHARE^` where you want it to appear in the email. In the following HTML the QR code is centered on the page:

Subject
^FROM^ has shared files with you

HTML Email Body

```

</td>
<td style="background: #1265a0;">&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;</td>
</tr>
<tr>
<td style="background: #f7f7f7;">&nbsp;&nbsp;&nbsp;&nbsp;&nbsp;</td>
<td style="background: #f7f7f7; font-family: Arial, Helvetica; font-size: 14px; line-height: 20px; text-align:left">

Supported Placeholders

The following tables list the placeholders that are supported in each email template.

Table 1. Account Approval Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^DISPLAYNAME^	Display name of the user
^VERIFYURLTEXT^	Text to be displayed
^VERIFYURL^	Server URL
^EMAIL^	Email ID of the user

Placeholder	Description
^PASSWORD^	Password for the user
^USERNAME^	Username of the user
^TO^	First name of the user

Table 2. Account Locked Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^FILECLOUD^	Service Name
^USERNAME^	Username of the user
^CLIENT^	User Agent
^TIMEOUT^	Lockout time in minutes
^EMAIL^	Email ID of the user
^TO^	First name of the user

Table 3. Add Group to Share Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^FROM^	Display Name of the user
^NAME^	Share Name
^URL^	Share URL

Placeholder	Description
^EMAIL^	Email ID of the user
^TO^	First name of the user
^QRCODESHARE^	QR code for accessing share (added in version 23.253)

Table 4. Add New User to Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^FROM^	Display name of the user
^NAME^	Share Name
^URL^	Share URL
^NEWACCOUNTURL^	User portal URL that can be used by the user to log in
^EMAIL^	Email ID of the User
^TO^	First name of the user
^DAYS^	Number of days till share expiration (added in Version 20.1)
^QRCODESHARE^	QR code for accessing share (added in version 23.253)

Table 5. Add User to Share Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^FROM^	Display name of the user

Placeholder	Description
^NAME^	Share Name
^EMAIL^	Email ID of the User
^DAYS^	Number of days till share expiration (added in Version 20.1)
^QRCODESHARE^	QR code for accessing share (added in version 23.253)

Table 6. Auto Create New User To Share Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^FROM^	Display name of the user
^CLOUDURLLINK^	User portal URL that can be used by the user to login
^EMAIL^	Email ID of the user
^PASSWORD^	Password to use for the initial login
^TO^	First name of the user
^QRCODESHARE^	QR code for accessing share (added in version 23.253)

Table 7. Device Waiting for User Approval Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^URL^	FileCloud login page URL

Table 8. Expiring Share Notification Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^SHARENAME^	Name of the share
^SHAREPATH^	Share location
^DAYS^	Number of days till share expiration
^URL^	Link to the share
^EMAIL^	Email ID of the user
^EXPIRY_DATE^	Date that share will expire
^QRCODESHARE^	QR code for accessing share (added in version 23.253)

Table 9. Failed Upload Notification Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^SERVICENAME^	Name of the service
^TOTALSIZE^	Total allocated disk space for the user
^EMAIL^	Email ID of the User

Table 10. Generic Email Template

Placeholder	Description
^CLOUDURL^	Server URL

Placeholder	Description
^HEADING^	Title of the Template
^BODY^	Email content
^EMAIL^	Email ID of the user

Table 11. Limited Disk Space Notification Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^SERVICENAME^	Name of the service
^TOTALSIZE^	Total allocated disk space for the user
^EMAIL^	Email ID of the User

Table 12. Notification Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^PATHLIST^	List of files added/modified
^EMAIL^	Email ID of the User

13. Notification Item Template

Placeholder	Description
^ACTIONIMAGEURL^	URL of the icon that is associated with the action
^ACTIONNAME^	The name of the action
^FILENAME^	File Name
^FILEPATH^	File Path
^DATE^	Date of the action
^HOW^	User agent that performed the action
^IP^	IP Address associated with the action
^LOCATION^	User agent Location
^CLOUDURL^	Server URL
^EMAIL^	Email ID of the User
^CHECKSUM^	Checksum of the file

Table 14. Password Expiration Notification Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^SERVICENAME^	Name of the service
^DAYS^	Number of days till password expiration
^EMAIL^	Email ID of the User

Table 15. Share Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^FROM^	Displayname of the user
^FILENAME^	Filename of the shared file
^URL^	Share URL
^MESSAGE^	Email content specified by the user
^EMAIL^	Email ID of the User
^THUMBURL^	Image thumbnail (only for a single share)
^DAYS^	Number of days till share expiration (added in Version 20.1)
^EXPIRY_DATE^	Date that share will expire (added in Version 21.3)
^SHAREPASSWORD^	Password required to access share.
^QRCODESHARE^	QR code for accessing share (added in version 23.253)

Table 16. Two Factor Authentication Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^HEADING^	Title of the Template
^CODE^	2FA code
^VALIDITY^	2FA code expiry time in minutes
^EMAIL^	Email ID of the User

Table 17. Waiting for Approval Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^USERNAME^	Username of the User
^EMAIL^	Email ID of the User

Table 18. Welcome/Verification Email Template

Placeholder	Description
^CLOUDURL^	Server URL
^DISPLAYNAME^	Display name of the user
^VERIFYURL^	Server URL
^EMAIL^	Email ID of the user
^TO^	First name of the user

Table 19. Workflow Notification Email Template (Disable inactive account)

Placeholder	Description
^CLOUDURL^	Server URL
^HEADING^	Emails heading message
^SERVICENAME^	Name of the service
^USERNAME^	User name
^EMAIL^	Email ID of the user

Placeholder	Description
^TO^	First name of the user

Table 20. Reset Forgot Password Email Template

Placeholder	Description
^EMAIL^	Email ID of the user requesting password reset
^USERNAME^	The username of the user requesting the password reset
^PASSWORD_RESET_URL^	Complete URL for resetting the password
^CLOUDURL^	Server URL

**Note**

The following predefined templates are not visible in the FileCloud admin portal and cannot be customized:

Admin Version

- Change Account Status Workflow Email Template
- Delete Account Workflow Email Template
- Disable Account Workflow Email Template
- Generate Report Workflow Email Template

User Version

- Change Account Status Workflow Email Template
- Delete Account Workflow Email Template
- Disable Account Workflow Email Template

News Feed

Note: Beginning with FileCloud Version 20.3, the news feed XML supports the use of CDATA sections.

FileCloud supports displaying an RSS feed in the navigation pane of user web UI.

This feed can be modified by an administrator or disabled completely.

The screenshot shows the FileCloud user interface. On the left, there is a navigation sidebar with the following sections and items:

- All Files** (selected)
- My Files (selected)
- Team Folders
- Network Shares
- Shared with Me
- Recent Documents**
- Starred
- Shared by Me
- File Operations**
- Notice** (selected)
- FileCloud Enterprise: do more with governance, content classification, and more
- Deleted Files

Powered by FileCloud

The main content area is titled "My Files" and shows a list of 66 items. The list includes:

Name	Modified	Size
backups	Jul 24, 2020 4:08 PM by you	1
QuickNotes	Nov 17, 2020 3:12 PM by you	1
Public Documents	Jun 15, 2020 10:04 AM by you	1
DI 19-20	Jun 08, 2020 1:00 PM by you	1
Accounts		...
users.csv	Oct 21, 2020 3:40 PM by you	2 KB
users (1).csv	Oct 14, 2020 9:29 AM by you	3 KB
tofuvermicelli.png	Nov 16, 2020 10:41 AM by you	1

Page 1 of 2

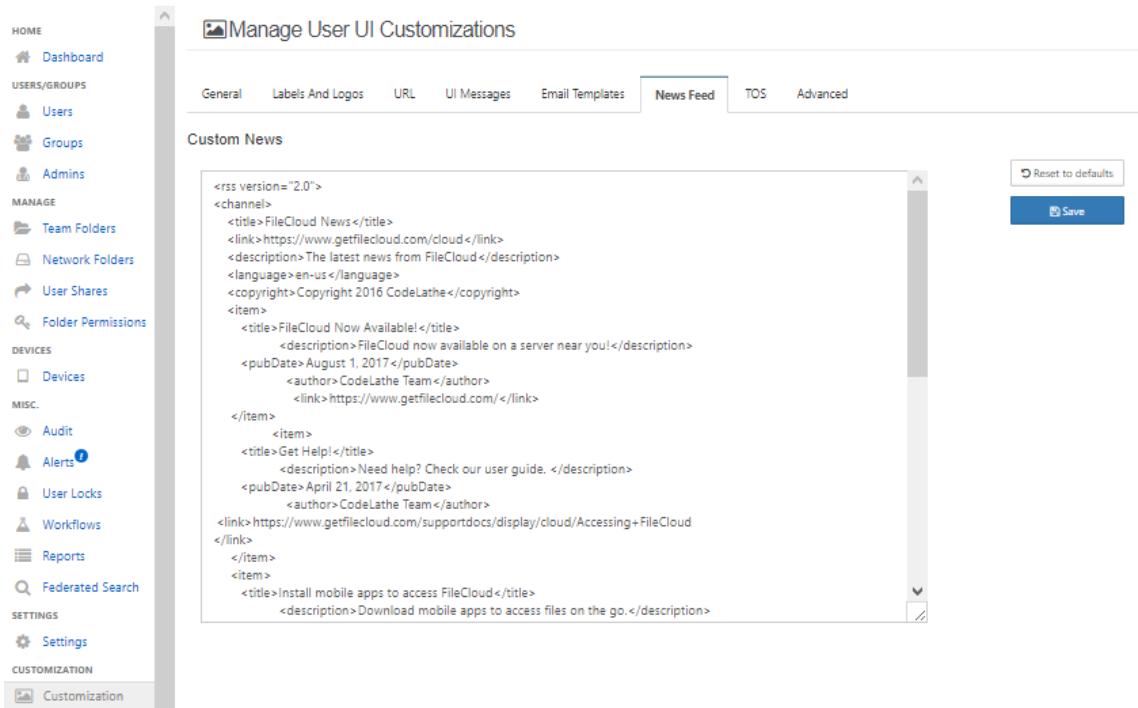

The RSS feed must follow RSS XML format version 2. Otherwise user UI parsing will fail

To change the RSS feed ,

1. Log into Administration Portal
2. Click on "**Customization**"

3. Click on "News Feed"
4. Change the feed
5. Click on **save** button.

The screenshot shows the 'Manage User UI Customizations' interface. The left sidebar includes links for HOME, USERS/GROUPS, MANAGE, DEVICES, MISC., SETTINGS, and CUSTOMIZATION. The CUSTOMIZATION section is currently selected. The main content area is titled 'Manage User UI Customizations' and has tabs for General, Labels And Logos, URL, UI Messages, Email Templates, News Feed (which is selected), TOS, and Advanced. The 'Custom News' section contains an RSS feed XML code. On the right side, there are 'Reset to defaults' and 'Save' buttons.

```

Customize Product URLs

FileCloud allows changes to a number of URLs used in the system to customize your user experience.

The following URLs can be customized.

URL	Description
Install Desktop Apps URL	<p>This is the URL that will be opened when a user in the user portal clicks Install Mobile and Desktop Apps, and then clicks FileCloud Sync.</p>  <p>The screenshot shows the FileCloud user portal interface. At the top, there is a search bar and a user profile for 'Emma'. Below the search bar, there is a button labeled 'Install mobile and desktop apps'. An orange circle with the number '1' is placed over this button, with an arrow pointing to it. To the right of the button, there is a 'team folder account' section. Below the button, there are two main sections: 'Mobile Apps' and 'Desktop Apps'. The 'Mobile Apps' section contains text and download links for the App Store and Google Play. The 'Desktop Apps' section contains text and download links for 'FileCloud Sync' and 'FileCloud Drive'. An orange circle with the number '2' is placed over the 'FileCloud Sync' link in the 'Desktop Apps' section, with an arrow pointing to it. At the bottom of the screenshot, there is a note: 'If you are using FileCloud's default Sync app, then no change is necessary'.</p> <p>If you are using FileCloud's default Sync app, then no change is necessary</p>

URL	Description
Install Mobile Apps URL	<p>This is the URL that will be opened when a user in the user portal clicks Install Mobile and Desktop Apps, and then clicks Download on the App Store or Get It On Google Play.</p> <p>By default, these links go to the page on the FileCloud website that includes links to the FileCloud app download pages in the Google and Apple stores. Change it here to include a link to a custom page with links to the appropriate download pages in the Google and Apple stores.</p> 
Install FileCloud Addins URL	<p>This URL that goes to the add-ons section of downloads in the FileCloud website. The current user interface does not include a link that goes to this URL, but if you add custom links, you may use this URL.</p>
Product Help URL	<p>This is the URL of the product's online help. By default it goes to the FileCloud support documentation.</p>
Product Facebook URL	<p>If this is set, the user UI will contain a link to open this URL in the account dropdown menu. Set this to empty string to remove this link.</p>
Product Tech Support URL	<p>This is the url that will be opened when user clicks on "Help & Support" in the drop down menu.</p>

URL	Description
Initial User Web Portal Path	<p>This path can be used to customize which folder the web interface navigates to when a user logs in. Example: #expl-tabl./EXTERNAL</p> <p>Warning: If all users don't have access to this path, then they might not see anything when they login.</p>
Forgot Password URL	<p>For External authentication like Active Directory or LDAP, it is possible to set a URL here so that when a user clicks on "Forgot Password", it takes them to the specific URL.</p>
User Login Custom Option Label	<p>This is to create a new label in More Options section of a login page, below forgot password, to redirect users to another option to reset the password.</p>
User Login Custom Option URL	<p>Specify the URL for the new label in More Options section of a login page, below forgot password.</p>

To perform customizations, follow the following steps

1. Log into the Administration portal
2. Click on **Customizations** on the left navigation panel.
3. Click on **URL** tab.

Customizing CSS

Enter Custom CSS Entries

In the admin portal navigation panel, click **Customization**, and click the **Advanced** tab. Enter your custom CSS into the field **Custom CSS Entries**.

Example CSS:

General Labels And Logos URL UI Messages Email Templates News Feed TOS Advanced

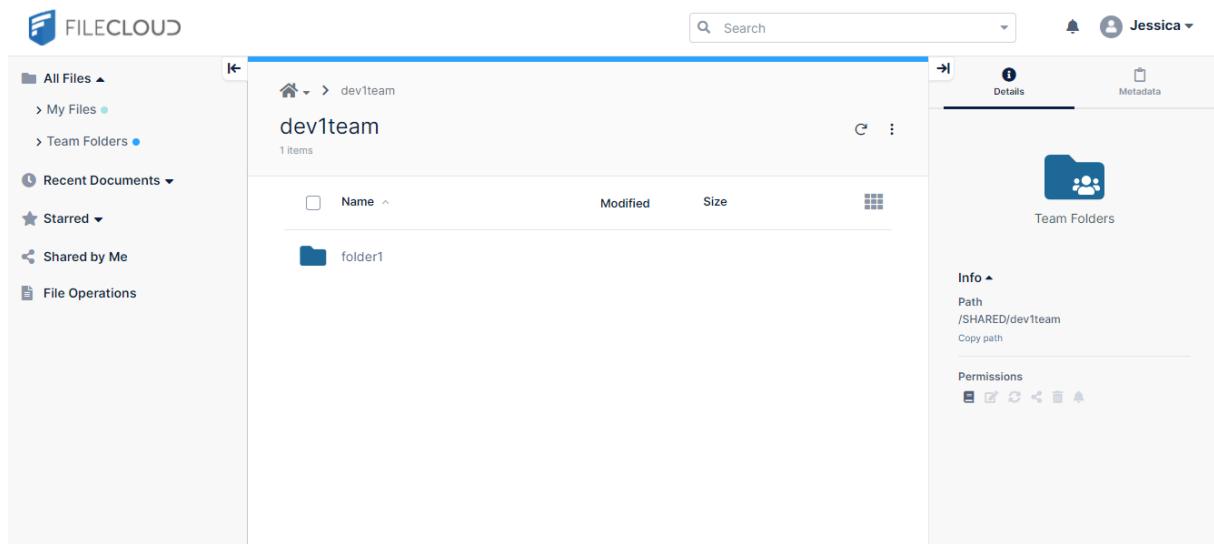

Custom CSS

Custom CSS Entries

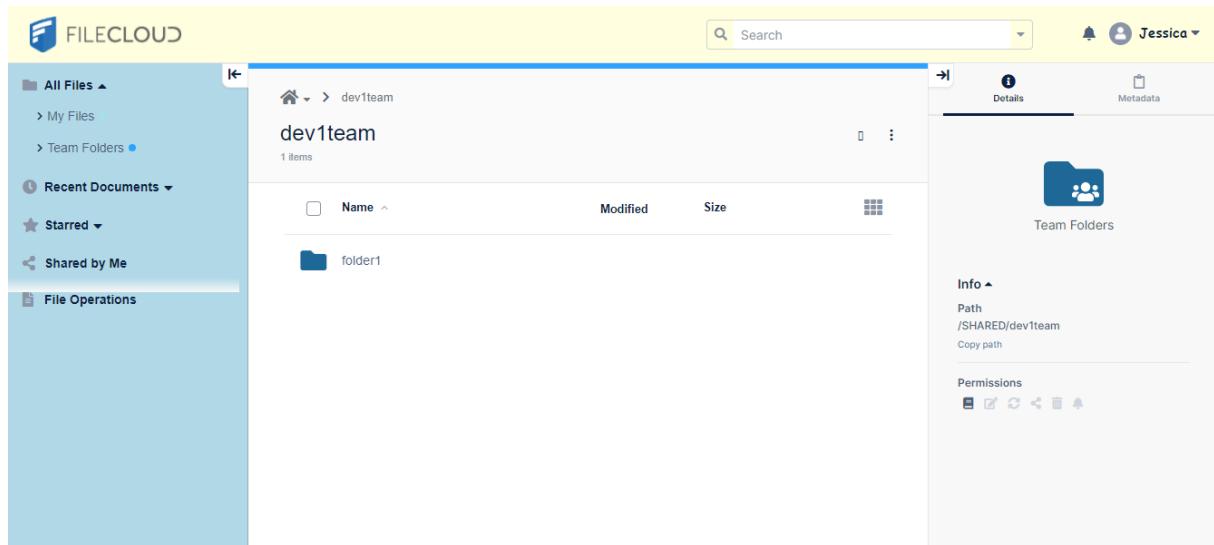

```
.navbar {  
background-color: lightyellow;  
}  
  
.btn {  
border: none;  
color: black;  
padding: 5px 5px;  
text-align: center;  
text-decoration: none;  
display: inline-block;  
font-size: 16px;  
font-family: cursive;  
}  
  
.sidebar {  
background-color: lightblue;  
font-family: "Gill Sans", sans-serif;  
}  
  
.main-content {  
font-size: 20 px;  
font-family: "Gill Sans", sans-serif;  
}
```

Additional CSS entries

Before Custom CSS Added

After Custom CSS Added

Note: Additional CSS entries are enforced in addition to those specified in the manual entries.

Your custom attributes take precedence over the attributes set in the theme assigned by you (see page 10) or the theme users select.

FileCloud White Label Guide

This section provides information for white labeling FileCloud Applications.

White label support requires the appropriate FileCloud subscription. It is available for FileCloud Enterprise Edition and FileCloud Service Provider Advanced/Premium Edition.

- [FileCloud Android App White Label Instructions \(see page 45\)](#)
- [FileCloud Drive White Label Instructions \(see page 46\)](#)
- [FileCloud iOS App White Label Instructions \(see page 51\)](#)

- [Signing Applications \(see page 58\)](#)
- [FileCloud Website White Label Instructions](#)

FileCloud Android App White Label Instructions

White label support requires purchasing the appropriate FileCloud Service Provider Edition

The Service Provider is responsible for providing the requested information and uploading the application to PlayStore.

FileCloud Android app requires the following information and data :

- **Name for the app** : This will be the display name of the app. The name should be short so it can be displayed without truncation on device screen. Can contain spaces.
- **Android App ID** : Your app's system identifier. This name must be unique and not already exist in the Google Play Store. Example : com.filecloud.android
- **App icon** : Your app's icon. See example and file details below

File Name	Image Size (px)
app_icon.png	192x192

The following values are the default. Provide your links

Description	Value
Privacy Link:	http://www.filecloud.com/privacy/
TOS	http://www.filecloud.com/tos/
Help	https://www.filecloud.com/supportdocs/display/FCDOC/Android

FileCloud Drive White Label Instructions

FileCloud Drive white label support enables service providers and partners to customize the theme color and product name on the Drive interface.

White label support requires the appropriate FileCloud subscription. It is available for FileCloud Enterprise Edition and FileCloud Service Provider Advanced/Premium Edition. The Service Provider is responsible for providing the requested information and uploading the application.

Customizing FileCloud Drive

To customize FileCloud Drive:

1. Create an xml file named **custom.xml** with the following contents:

```
<?xml version="1.0" encoding="utf-8"?>
<customconfig>
<config>

<productname>Product xyz</productname>
<themecolor>#DA70D6</themecolor>
<updateurl>http://patch.codelathe.com/tonidodrive/live/
filecloudmacdriveserverversion.xml</updateurl>
<supporturl>http://getfilecloud.com</supporturl>

</config>
</customconfig>
```

The available custom tags are:

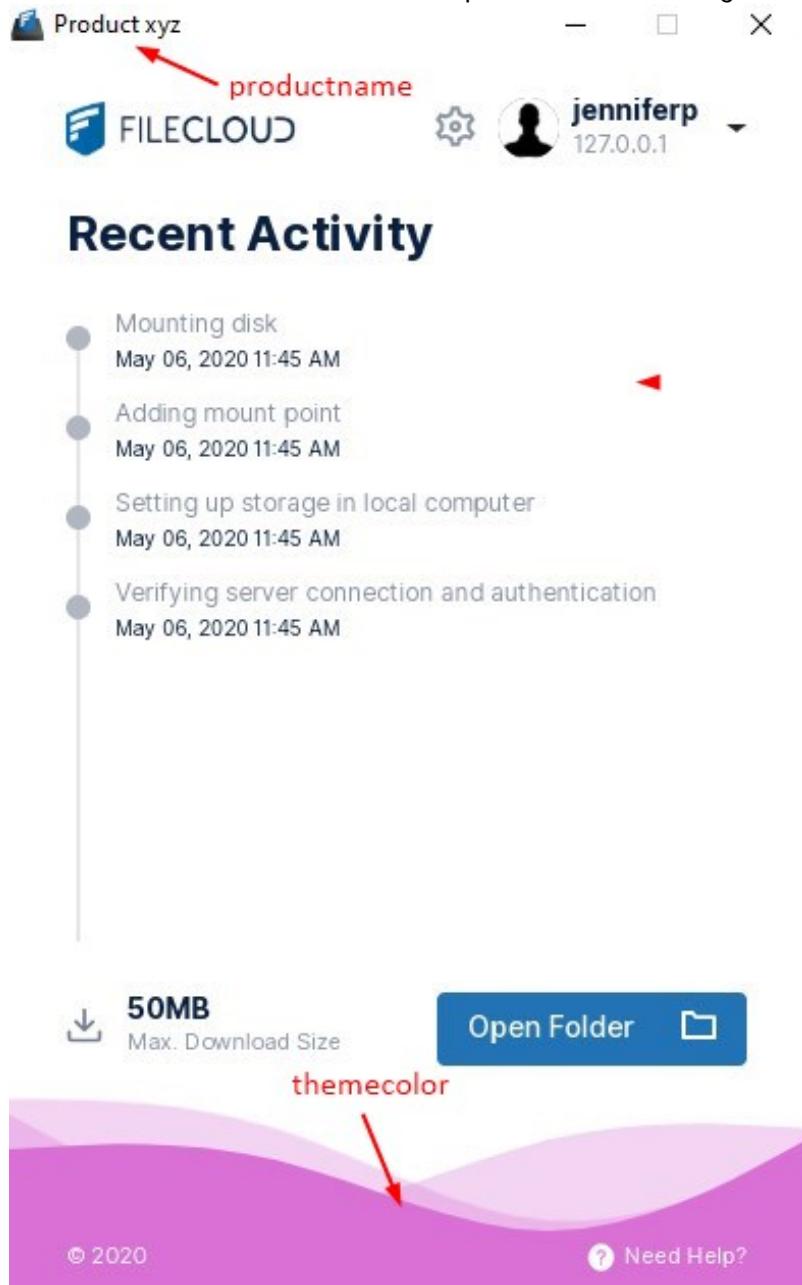

```
<productname>Product xyz</productname>
<themecolor>#DA70D6</themecolor>
```

The value for <themecolor> is a hex color code.

2. Save **custom.xml** in the folder: **FileCloud Drive/service**, where **FileCloud Drive** is your Drive installation folder.

3. Restart FileCloud Drive.

The custom.xml file in the code above produces the following custom interface:

Required information for Windows

The following elements are required:

Information	Notes

Product Name	This is the name used to refer to the application. The default value is "FileCloudDrive", you can use any name that you want. Do not use spaces inside this name.

FileCloud iOS App White Label Instructions

White label support requires the appropriate FileCloud subscription. It is available for FileCloud Enterprise Edition and FileCloud Service Provider Advanced/Premium Edition.

The Service Provider is responsible for providing the requested information (including screenshots) and submitting the application to TestFlight or the AppStore.

FileCloud iOS App White Label Requirements

Apple Developer Program

Step 1: Choose an option

Option A: Enroll to the Apple Developer Enterprise Program

- App doesn't require review by Apple, so updates to your users is immediate.
- App can be sent by email, downloaded from your site or distributed freely by any other means.
- 299 USD per year.
- Enrollment <https://developer.apple.com/programs/enterprise/>

2. mailto:drive@2x.png

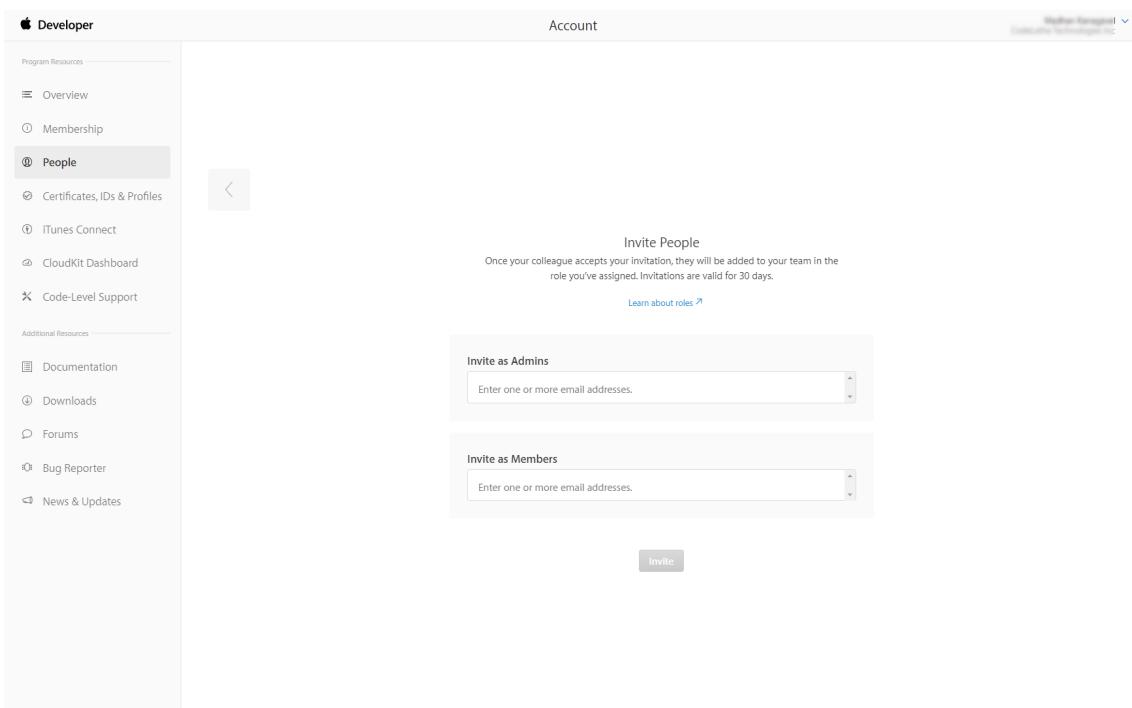

Option B: Enroll to the Apple Developer Program

- App updates require review by Apple and may take up to two weeks to be available to your users.
- App can only be downloaded from the AppStore.
- 99 USD per year.
- Enrollment <https://developer.apple.com/programs/>. **Enroll as an Organization and not as an Individual.**

Step 2: Give us access to your Developer Program

In order to configure your app we require access to your Developer Program created in Step 1.

1. Login to your Developer Program account <https://developer.apple.com/account/>
2. **Invite ios@codelathe.com³** as **Admin** from <https://developer.apple.com/membercenter/index.action#invitations>.

The screenshot shows the 'People' section of the Apple Developer Program interface. On the left, there's a sidebar with links like Overview, Membership, People (which is selected and highlighted in grey), Certificates, IDs & Profiles, iTunes Connect, CloudKit Dashboard, and Code-Level Support. Below that is an 'Additional Resources' section with Documentation, Downloads, Forums, Bug Reporter, and News & Updates. The main content area is titled 'Invite People' and contains instructions: 'Once your colleague accepts your invitation, they will be added to your team in the role you've assigned. Invitations are valid for 30 days.' It has two input fields: 'Invite as Admins' (with placeholder 'Enter one or more email addresses.') and 'Invite as Members' (with placeholder 'Enter one or more email addresses.'). A large 'Invite' button is at the bottom.

3. <mailto:ios@codelathe.com>

If you don't see the Invite People screen then you may have enrolled as an Individual in Step 1. Change your account into an Organization here <https://developer.apple.com/contact/submit/?entityType=individual&requestType=migrateAccount>.

If you have any question contact us at ios@codelathe.com⁴.

Step 3: Distribute the App

We will generate new versions and upload them to AppStore Connect (formerly known as iTunes Connect) ready for TestFlight or AppStore distribution. **Choose the option below that matches your chosen Option in Step 1:**

Option A: Send the IPA file directly to users

- Share the file by any electronic means (email, file share, company website, etc.).

Option B: Send the IPA to TestFlight or the AppStore

- Go to iTunes Connect (<https://appstoreconnect.apple.com>) and send the app to beta testers through TestFlight, or submit it to Apple for Review to publish the app in the AppStore.
 - For TestFlight distribution (internal testing) refer to <https://help.apple.com/app-store-connect/#/devdc42b26b8>.
 - For AppStore distribution refer to <https://help.apple.com/app-store-connect/#/dev34e9bbb5a>.

Note: You should choose "No" to both the Export Compliance and Advertising Identifier dialogs.

For version history, changes and What's New in each version refer to <https://apps.apple.com/us/app/filecloud/id646612982>.

Required Information and Images

Send us the information and images required to personalize your app:

App name

A short name of about 10 characters as it will be shown used by Siri and visible on the user Home screen.

4. <mailto:ios@codelathe.com>

App icon

A 1024x1024 pixels PNG image to be shown in the Home screen. Corners automatically rounded by the system. **Do not add transparency**.

Sample app name ("Tonido") and custom app icon

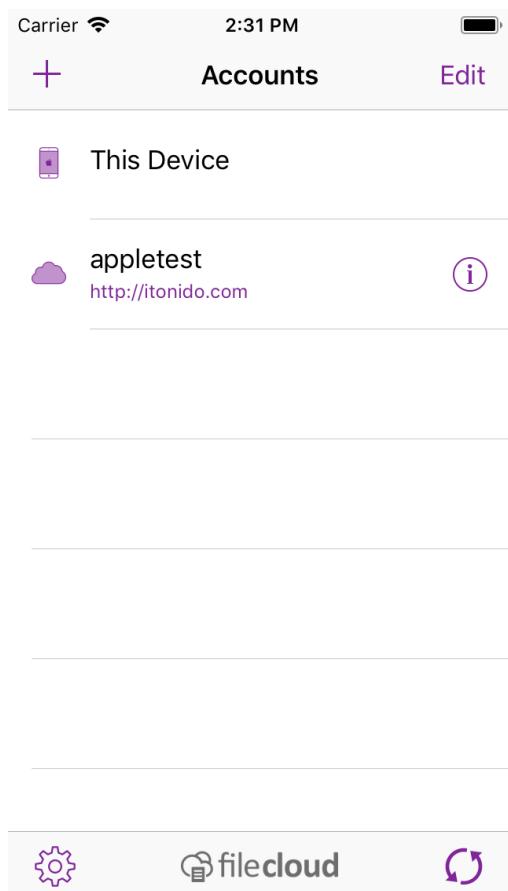

App tint color

A color to be applied to the main app elements to personalize the look and feel. It will be used on top of white most of the time so avoid very clear colors.

App logo

A 132 pixels heigh and maximum 900 pixels wide PNG image with optional transparency. It will be used to brand your app and be placed agains either white or your App tint color background.

Sample App tint color (0x81269A in hexadecimal or R129 G38 B154 in 8 bit RGB) and custom App logo shown in the bottom bar

FileCloud Sync White Label Instructions

White label support requires the appropriate FileCloud subscription. It is available for FileCloud Enterprise Edition and FileCloud Service Provider Advanced/Premium Edition.

The Service Provider is responsible for providing the requested information and uploading the application.

Overview

This document provides instructions on required information for fully whitelabel sync app for service providers or partners.

The sync app runs on 3 different platforms:

- Windows
- Mac OSX 64 bit (10.8 or greater)
- Linux Ubuntu 64 bit (12.04 or greater)

Required Customization Information

The following information is required for custom Sync App

Information	Notes
Product Name	This is the name used to refer to the application. The default value is "FileCloud", you can use any name that you want. Recommendation is not to use spaces inside this name.
Sync User Folder Name	This is the name of the folder where user's sync contents are stored. Default Value is "FileCloud" This can be changed to whatever you need, we recommend a name without spaces in it.

Signing Applications

White label support requires purchasing the appropriate FileCloud Service Provider Edition

Signing Applications on Windows

1. Get a code signing certificate from an authority like Thawte who provide code signing certificates.
2. Follow this process to sign your exe. https://search.thawte.com/support/ssl-digital-certificates/index?page=content&id=S07516&actp=search&viewlocale=en_US&searchid=1465411633081

Customizing Terms of Service

More terms of service settings are available at [Settings > Misc > Privacy](#).

Beginning with FileCloud Version 22.232, the default link to FileCloud terms of service has changed to <https://www.filecloud.com/eula/>. The link will only be changed automatically on new installations of FileCloud. Although the previous link will automatically redirect users to the new page, if you are upgrading FileCloud to version 23.232 or using an earlier version, we recommend that you change the link in **Customization > TOS** to <https://www.filecloud.com/eula/>⁵

Change the content of the Terms of Service

To change the content of the Terms of Service:

1. Click **Customization** in the left navigation panel.
2. Click the **TOS** tab
3. To enter new terms of service, change the HTML code in **Terms of Service**.

General Labels And Logos URL UI Messages Email Templates News Feed **TOS** Custom Header Custom Footer
